

## **AFRICAN UTILITY WEEK 2017, CTICC**

### **German Day, 17<sup>th</sup> May 2017**

#### **11:00-11:20 Company Presentation by Boreal Light, Mr. Hamed Beheshti**

Affordable water desalination system, from technical innovations, to innovative financial models. Desalination has been always an expensive technology to offer drinking water to off-grid communities. Winture solar water desalination system is capable of offering low cost hygiene water as well as electricity to communities living in the harshest climate conditions. Technological development is just part of the solution. The way market may access to the machine and to the final product is the main trick. Winture is offering tailored design finance mechanism to low income communities, making them able to pay far less and get far more!

#### **11:30-11.50 Company Presentation by Tesvolt GmbH, Mr. Stefan Ailler**

TESVOLT specialises in in high-performance lithium storage systems which are particularly suitable for application in commerce and industry. They achieve an efficiency of more than 98 percent as well as a lifespan of 30 years and can also be used for off grid power supply.

#### **12:00-13:00 Company Presentation by maxx-solar energy Pty Ltd., Mrs. Antje Klauss-Vorreiter, Company Presentation by IBC Solar PTY Ltd., Mr. Daniel Haitzler Company Presentation by SMA Solar Technology South Africa (Pty) Ltd., Mr. Thorsten Ronge**

ACHIEVING MORE TOGETHER – maxx training, IBC Solar wholesale and SMA products
